FOREWORD

This report is one of a series of provincial reports on the results of the 1980 Census of Population and Housing conducted on May 1, 1980.

Demographic data presented herein consist of population distributions according to age, sex, marital status, highest grade completed and literacy. Other bases as gainful occupation, industry and migration are included likewise.

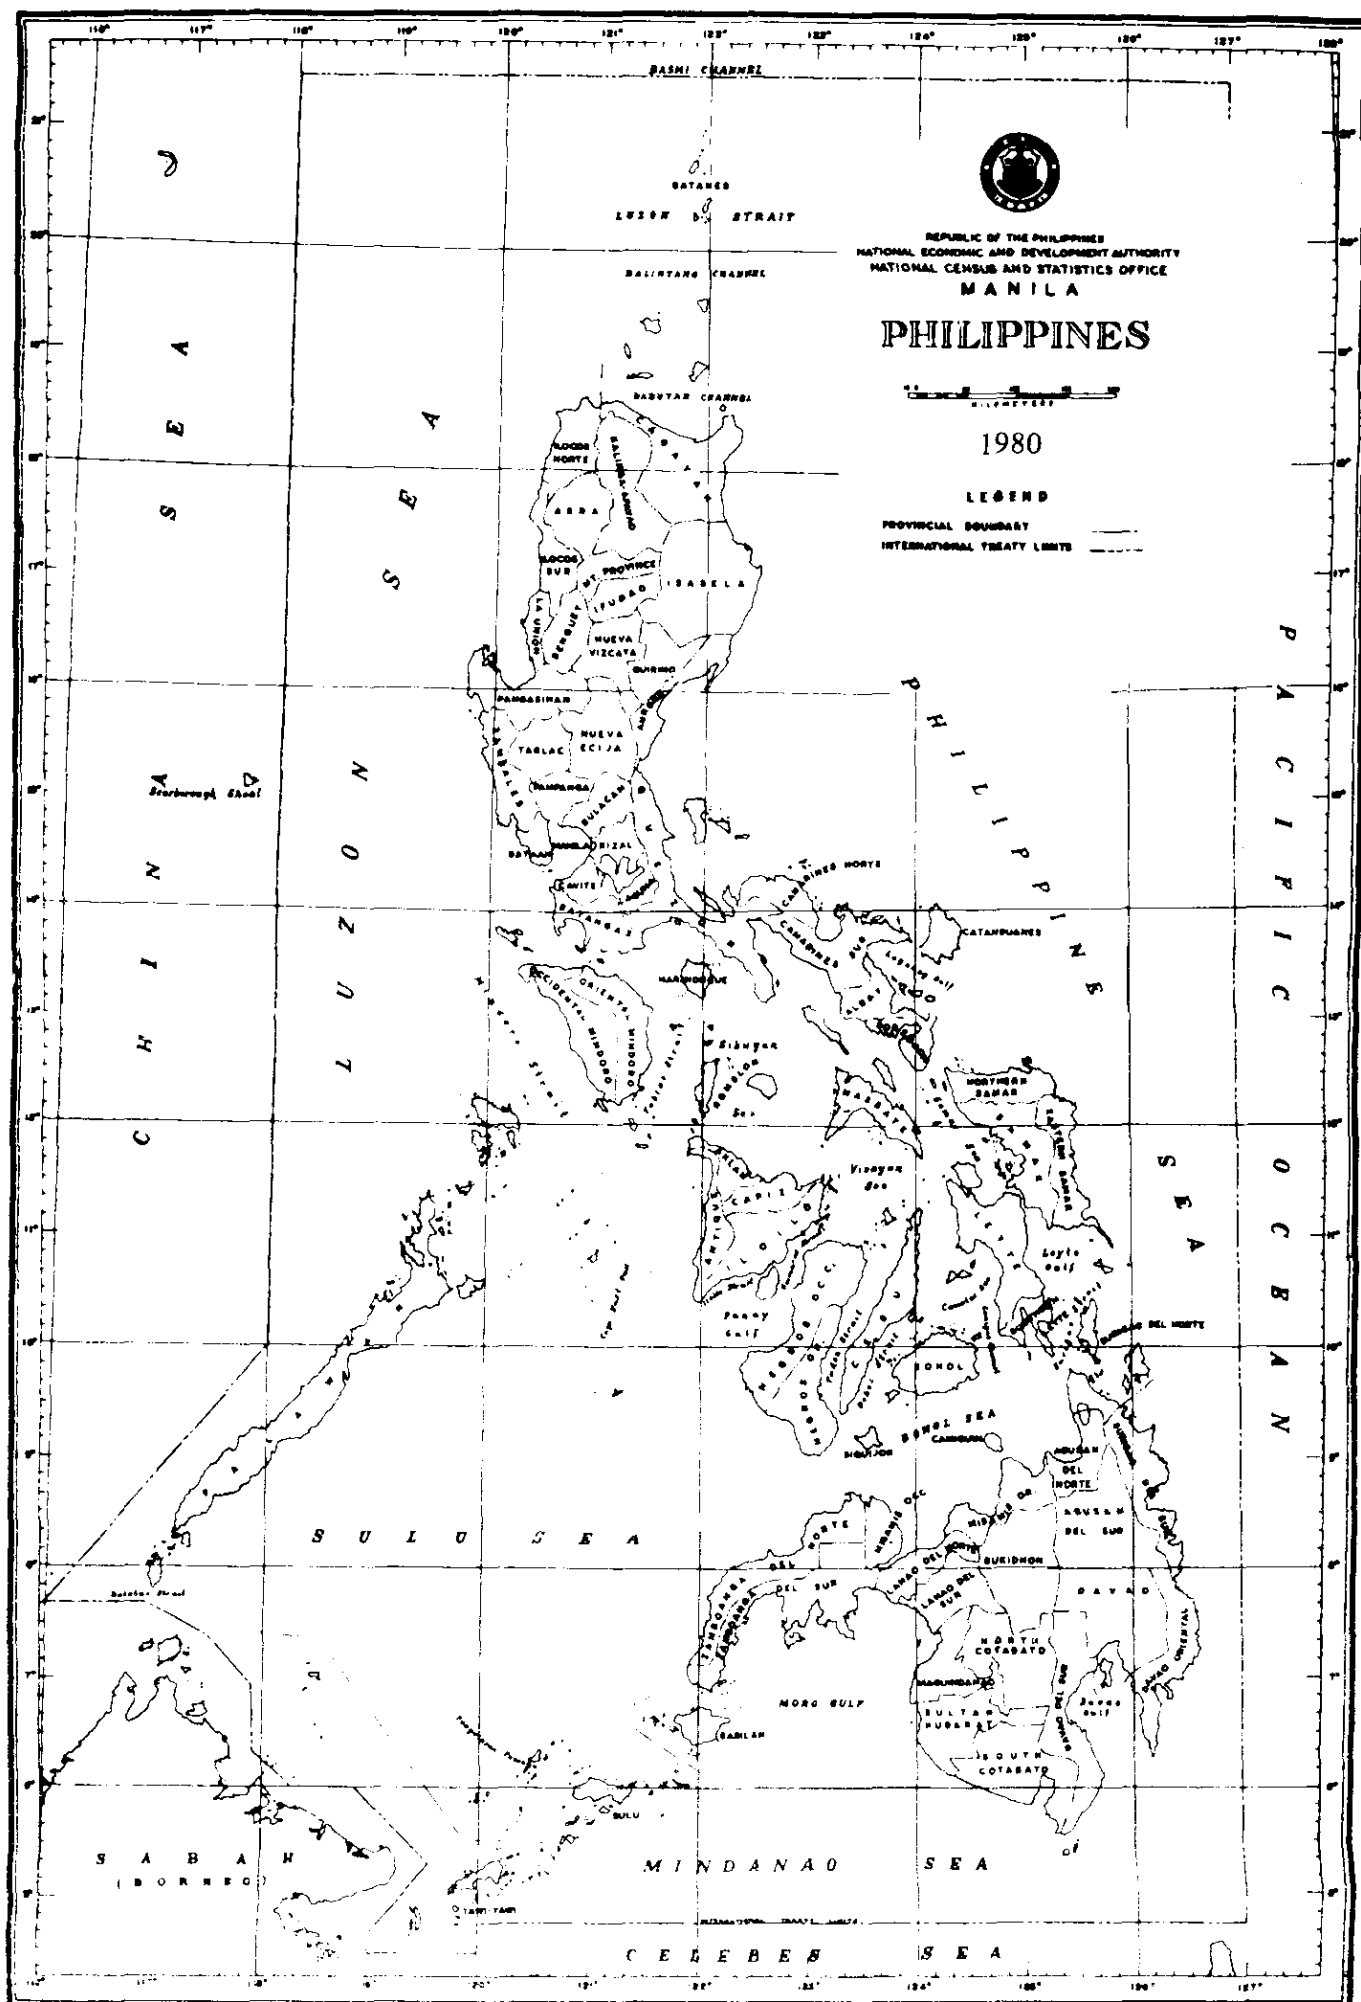

In the other aspect of the census, the following housing characteristics are considered: type of building, structural characteristics, floor area, type of tenure, use and source of water supply, lighting, type of toilet facilities, kind of cooking fuel used and appliances.

Subsequent issues will be the National Summary (Volume II) containing summary data on the final provincial reports and the Special Volume on National Capital Region (Metro Manila Area) which will cover data on the social, economic and demographic characteristics of the region.

Grateful acknowledgment is due the National Census Coordinating Board, government agencies, committees and the local coordinating boards for their invaluable assistance and cooperation.

TITO A. MIJARES

Explanatory Text

GENERAL

INTRODUCTION

The National Census and Statistics Office conducted in May 1980, the 1980 Census of Population and Housing. This type of Census was also undertaken in May 1970. In May 1975 the Census of Population was taken as Phase I of the 1975 Integrated Census of the Population and Its Economic Activities. This nationwide undertaking was designed to obtain comprehensive data on the size, distribution, structure, change and socio-economic characteristics of the population and to take inventory of the housing accommodations, their geographic location, structural characteristics, available facilities, etc.

The population report contains data gathered from private households as well as collective households, while data on housing were collected from private households only.

It should be emphasized at this point that a complete enumeration of all households throughout the country was made but only sample household questionnaires representing 20 percent of the listed households were processed and the data published in this volume. In so doing, however, the total population count by barangay, male and female, obtained from the listing sheet taken simultaneously during the enumeration was maintained in computing the weights or expansion factors. It should also be noted that data on Tables 1 to 4 of the population tables refer to total population, that is, the population of the private households plus the collective households while Tables 5 to 10 cover exclusively the private household population.

Pursuant to the provision of Batas Pambansa Bilang 72, a final count of the population, by sex at barangay level was submitted to the President and was approved under Proclamation No. 2170 dated March 12, 1982. This report was published separately in 74 provincial volumes.

AUTHORITY FOR THE 1980 CENSUS

Under Commonwealth Act No. 591, the National Census and Statistics Office is authorized "to prepare for and undertake all censuses of population, agriculture, industry and commerce."

It may be mentioned in this regard that sometime in February 1980 Parliamentary Bill No. 809 was presented at the Batasang Pambansa, providing for the taking of an integrated census every ten years beginning 1980, with May 1 of every census year as the reference date. This bill was approved into Batas Pambansa Bilang 72 on June 11, 1980, more than one month after the start of enumeration.

INTER-AGENCY PARTICIPATION

The expertise and technical advice of the National Economic and Development Authority Inter-Agency Committee on Population and Vital Statistics and its Technical Working Group on 1980 Census of Population and Housing played a vital role in the successful undertaking of the census.

The Committee's main function was to review the questionnaire, methodologies, concept, tabulation and other related aspects of the census in the production of data and development of systems that would produce more reliable and accurate result. It had for its chairman the Dean of the University of the Philippines Population Institute (UPPI) and for its members, one representative each from the Ministries of Human Settlements (NHS), National Defense (MND), Education and Culture (MEC), Health (MOH) and Local

EXPLANATORY TEXT

Government and Community Development (MLGCD); the Commission on Population (POPCOM); National Economic and Development Authority (NEDA); and two representatives from the National Census and Statistics Office (NCSO). The Technical Working Group (TWG) for the 1980 Census of Population and Housing was headed by the Chief of the National Census and Household Surveys Department of NCSO and the members were representatives from the MHS, EPRS-NEDA, SCO-NEDA, POPCOM, UPPI, MOH, MEC, and the National Housing Authority (NHA).

Recommendations were likewise solicited from other government agencies for questions that should possibly be included in the population and housing portions in order to fill their data needs.

As early as August 1977, an NCSO Technical Committee for censuses was created. Ranking officials of the National Census and Statistics Office comprised the committee, with the Assistant Executive Director as Chairman, the Chief of the National Census and Household Surveys Department (NCHSD) as Vice-Chairman and Heads of six other departments and staff offices as members.

The committee coordinated with the Inter-Agency Committee and TWG of the NEDA on the technical aspect of the census and rendered a monthly progress report to the Executive Director. It provided the overall direction of the activities of the different subcommittees on census. The two subcommittees created, the Sub-Committee on Population and Housing Census and the Sub-Committee on Operations and Logistics Support, were directly charged with the preparatory work for the census undertaking.

CENSUS BOARDS

A systematized involvement of government agencies and instrumentalities was made possible largely through the concerted efforts of the members of the National Census Coordinating Board (NCCB) and the Provincial, City and Municipal Census Boards. The national board was created by NEDA Memorandum Order No. 4-80, dated April, 1980 and the local boards, by Memo Order No. 5-80, dated April 1, 1980, by virtue of the powers vested in the Minister of Economic Planning under Section 3 of Presidential Decree No. 1200.

The NCCB was headed by the Minister of Economic Planning as Chairman with the Executive Director as Executive Officer. Named as members were the Ministers of Agriculture, Budget, Education and Culture, Finance, Human Settlements, Public Works, Justice, Labor, Local Government and Community Development, National Defense, Natural Resources, Public Highways, Public Information and Transportation and Communication. Rules and regulations necessary for the successful undertaking of the census were issued by the Board.

At the local government level, similar functions were carried out by the Provincial, City and Municipal Census Boards. The Provincial Governor headed the Provincial Census Board while the Division Superintendent of Schools was Vice-chairman. Members were the Highway District Engineer, Provincial Auditor, Provincial Commander of the Philippine Constabulary, the Provincial Development Officer and the Provincial Agriculturist. The City Census Board was composed of the City Mayor as Chairman; City Superintendent of Schools, Vice-chairman; and the City Engineer, City Assessor and City Development Officer, members. Finally, the Municipal Census Board had for its Chairman the Municipal Mayor and ably assisted by the District Supervisor as Vice-chairman. The members were the Municipal Agriculturist, Station Commander, Municipal Treasurer and the Municipal Development Officer.

EXPLANATORY TEXT

For each of these local census boards, the Provincial Census Officer, City Census Officer and the Municipal Census Officer were designated Executive Officer of their respective Board.

CENSUS ORGANIZATION

The overall direction and instructions for the census undertaking emanated from the Executive Director of the National Census and Statistics Office or in his absence, the Assistant Executive Director.

Assisted by the Task Force from the Central Office and in coordination with the local census boards, the Regional Census Officers and the Provincial Census Officers directly supervised the field operations in their respective areas. The services of District Supervisors, Head Teachers and elementary school teachers from public schools were utilized as City/Municipal Census Supervisors, Team Supervisors and Enumerators in that order.

During the field operations, the 1980 Census Operations Center under the overall supervision of the National Census and Household Surveys Department Chief, was the operating body that monitored the overall operations. Lending support to the center were the Administrative and Fiscal Services Staff.

METHOD OF ENUMERATION AND USE OF SAMPLING

The household was used as the enumeration unit and a complete listing of dwelling units, including vacant ones, was done.

A combination of complete enumeration and sampling was adopted. While all households were asked on the count of the population and housing characteristics, only twenty percent (20%) were asked on other characteristics. The selection of sample households was done systematically with a random start from a listing of households which was prepared simultaneously with the enumeration.

Using PH Form 2 (Common Private Household Questionnaire) and with an 80 percent coverage, the items asked on population were household membership, relationship to head, line number of mother, sex, date of birth, age as of last birthday and marital status. For the housing items, the type of building and the construction materials of roof and outer walls, number of rooms, floor area of the dwelling unit and the year the building was built were asked.

In addition to the population and housing items just mentioned, additional information were asked using PH Form 3 (Sample Private Household Questionnaire) from the 20 percent samples such as language or dialect generally spoken at home, citizenship, usual residence of mother at person's birth, residence of person in 1975, ability to speak Pilipino and English, school attendance, highest grade completed, literacy, economic activity of the person, place of schooling or work, fertility, nature of occupancy of the dwelling unit and housing facilities and conveniences.

Collective households were enumerated using PH Form 4, where the information asked were the same as those in PH Form 2, excluding housing items.

PLACE WHERE ENUMERATED

All persons were enumerated in their usual place of residence, which is the geographic place (street, barangay, sitio, municipality or province) where the enumerated person usually resides. As a rule, it is the place where he usually sleeps; therefore, it may be the same as or different from the place where he was found at the time of the census.

EXPLANATORY TEXT

POST ENUMERATION SURVEY

Originally the plan was to conduct a Post Enumeration Survey covering the whole country. For lack of funds the survey had to be confined to Metro Manila. Its purpose was to determine the extent of underenumeration or overenumeration in the 1980 Census of Population and Housing.

A sample of 132 barangays was selected. However, in 59 barangays which were divided into two or more enumeration areas (EAs), an enumeration area was chosen as sample.

A complete listing was made of households in the sample barangays/EAs using PH Form 1-B. Twenty percent of these households were selected as sample households and interviewed using PH Form 2, which was the same questionnaire used for non-sample households during the main enumeration. The housing portion of this form was disregarded.

CONTENT AND COVERAGE OF THE PUBLICATION

In this publication, the population and households were described according to the respective items listed below:

Population Items	Housing Items
Age	Type of Building
Sex	Type of Occupancy
Marital Status	Construction Materials of Roof and Outer Walls
Highest Grade Completed	Year Built
Literacy	Floor Area of Dwelling Unit
Language/Dialect Spoken in the Household	Tenure of Owner-Occupant with Respect to the Land
Gainful and Non-Gainful Occupation	Kind of Lighting Facilities
Major and Minor Industry	Use and Source of Water Supply
Migration	Type of Toilet Facilities
	Kind of Cooking Fuel
	Household Appliances

The above items are presented in the ten population tables and nine housing tables of this report.

Except for figures on total population and sex, all other characteristics were based on a 20 percent sample.

Aside from these published tables, 10 other tables on the above characteristics plus 6 statistical tables dealing on ever-married women 15 years old and over are also available to statistical users.

DEFINITION OF TERMS AND CONCEPTS

I - POPULATION

BARANGAY

A *barangay* is the smallest political unit in the country and generally its enumeration is

EXPLANATORY TEXT

assigned to one enumerator. For enumeration purposes, a large barangay is usually split into parts and each part is called an enumeration area (EA).

ENUMERATION AREA

An enumeration area (EA) is a delineated area assigned to one enumerator, usually consisting of about 300 households. A barangay or part of a barangay may have been designated as an enumeration area.

URBAN AND RURAL AREAS

The same concepts used in the 1970 and the 1975 Censuses were followed in classifying areas as urban. According to these concepts, urbanized areas consist of:

1. In their entirety, all cities and municipalities having a population density of at least 1,000 persons per square kilometer.
2. Poblaciones or central districts of municipalities and cities which have a population density of at least 500 persons per square kilometer.
3. Poblaciones or central districts (not included in 1 and 2), regardless of the population size, which have the following:
 - a. Street pattern, i.e., network of streets in either parallel or right-angle orientation;
 - b. At least six establishments (commercial, manufacturing, recreational and/or personal services); and
 - c. At least three of the following:
 - 1) A town hall, church or chapel with religious services at least once a month;
 - 2) A public plaza, park or cemetery;
 - 3) A market place or building where trading activities are carried on at least once a week;
 - 4) A public building like a school, hospital, puericulture and health center or library.
4. Barangays having at least 1,000 inhabitants which meet the conditions set forth in 3 above, and where the occupation of the inhabitants is predominantly non-farming or fishing.

All areas not falling under any of the above classifications are considered rural.

PERSONS ENUMERATED IN A PRIVATE HOUSEHOLD

The following were counted and enumerated as members of the household:

1. Persons whose usual place of residence is the place where the household lives and present at the time of visit of the enumerator, except those born after 12:01 A.M., May 1, 1980;
2. Persons whose usual residence is the place where the enumerated household lives, but temporarily away at the time of enumeration, such as:
 - a. persons temporarily away on vacation, business or pleasure trip or any other purpose in the Philippines who are expected to be back within six months,

EXPLANATORY TEXT

- or within one year, if abroad;
 - b. students who usually go home to their respective households at least once a week;
 - c. persons working elsewhere who usually go home to their respective households at least once a week;
 - d. patients confined in hospitals for not more than six months at the time of enumeration of the household, except those confined (1) as inmates (not patients in wards for temporary confinement) in tuberculosis pavilions; (2) in mental hospitals; (3) in leprosaria or leper colonies; and (4) in rehabilitation centers for drug addicts;
 - e. trainees in the Armed Forces of the Philippines, if their training is not more than six months;
 - f. convicts and detainees in provincial or municipal/city jails or military camps, who have been confined for not more than 6 months at the time of enumeration of the household, except those who have been sentenced for more than 6 months (including those whose sentence is on appeal), even though just confined; and
 - g. officers and crew members of coastal, interisland, or fishing vessels; officers and crew members of ocean-going vessels who usually go home to their household at least once a year.
3. Boarders of the household who are working, looking for work or studying, and who do not go home at least once a week;
 4. Employees of household-operated enterprises who eat and sleep with the household and who do not go home at least once a week;
 5. Persons (other than those in "3" and "4") whose usual place of residence is elsewhere, but who have been away from their usual place of residence for more than 6 months;
 6. Members of the Armed Forces of the Philippines including draftees, sleeping most of the nights with the household, except those who only board or lodge with the household and who usually go home at least once a week; in such a case, they will be enumerated in their own household;
 7. Persons found in the household who have no usual place of residence elsewhere;
 8. Persons found in the household who are not certain of being enumerated elsewhere;
 9. Persons who consider the dwelling unit of the household as their usual place of residence but are living within the premises of a foreign embassy, ministry, legation or consulate, including non-Filipino employees who have been residents of the Philippines before such employment;
 10. Citizens of foreign countries and Filipinos (balikbayan) who have resided or expect to reside in the Philippines for more than one year from arrival;
 11. Persons who sleep in the same dwelling unit but may not be able to take all or some of their meals with the household because of the nature of their work or other similar reason (they take their meals at place of work, etc.), should be considered as part of the household; and
 12. A household member who is alive as of 12:01 A.M., May 1, 1980, but dies prior to the enumeration of the household.

EXPLANATORY TEXT

PERSONS TOTALLY EXCLUDED FROM THE ENUMERATION

Totally excluded from the population count of the Philippines were:

1. Foreign ambassadors, ministers, consuls or other diplomatic representatives, and members of their households (except Filipino employees and non-Filipino employees who had been residents of the Philippines prior to said employment);
2. Citizens of foreign countries living within the premises of an embassy, legation, chancellory or consulate;
3. Officers and enlisted men of U.S. Military or Naval Forces and non-Filipino members of their households, irrespective of residence; foreigners who are civilian employees in U.S. military or naval stations and member of their families living within the premises of said stations or reservation; (Note: for foreigners who are civilian employees of said stations living outside the station or reservation, see Item 5).
4. Citizens of foreign countries who are Chiefs and officials of international organizations like UN, ILO or USAID, who are subject to reassignment to other countries after their tour of duty in the Philippines, and members of their families;
5. Citizens of foreign countries together with non-Filipino members of their families, who are students or who are employed, or have business in the Philippines and have been in the Philippines or expect to stay in the country for one year or less from arrival;
6. Citizens of foreign countries and Filipinos with usual place of residence in a foreign country, who are visiting in the Philippines and expect to stay in the country for one year or less from arrival (e.g. a *balikbayan* who will return to his usual place of residence abroad after a short vacation or visit in the Philippines);
7. Citizens of foreign countries in refugee camps/vessels; and
8. Residents of the Philippines on vacation, pleasure or business trip, etc. abroad, who have been away or expected to be away from the Philippines for more than one year from departure.

USUAL PLACE OF RESIDENCE

The term refers to the geographic place (street, sitio, barrio/barangay, municipality or province) where the enumerated person usually resides. As a rule, it is the place where he sleeps most of the time; hence, it may be the same as or different from the place where he was found at the time of the census.

HOUSEHOLD

A household usually consists of a group of persons who sleep in the same dwelling unit and have common arrangements for the preparation and consumption of food. A person who lives alone is considered as one separate household. Although in most cases a household consists of a related family group, some household members may have no relationship to the central group. Boarders and servants, for instance are counted as part of a particular household if they take their meals with the household and sleep in the same dwelling unit. Persons who sleep with a household but individually cook their meals or eat elsewhere are each considered as single-person household.

EXPLANATORY TEXT

Three generations may be living in one dwelling unit. If they are divided into two or more groups whose eating arrangements are independent from each other, each group is counted as a separate household.

PERSONS NOT LIVING IN HOUSEHOLD

Falling under this category are persons living in collective living quarters such as welfare institutions (orphanages and homes for the aged or infirm); penal and corrective institutions (jails, national penitentiary, and reformatory institutions); hospitals, sanatoria, leprosaria, and nurses homes; dormitories and boarding schools; lodging houses such as hotels, tourist homes and the like; military camps and others.

Most of these institutions house inmates for whom care or custody is provided by resident staff members, or persons residing in group quarters or in housing units on the institutional grounds.

Private families living within such institutions, however, are excluded from the classification, as well as persons (employees, students, etc.) who go home to their families on weekends or days off. Persons found in lodging houses, but who are on vacation or business trips and whose absence from home does not exceed six months on the day of enumeration, are likewise not counted as part of the institutional population.

RESPONDENT

A respondent is any responsible adult member of the household who furnished the information or answers to questions during the interview.

LANGUAGE/DIALECT GENERALLY SPOKEN IN THE HOUSEHOLD

This refers to the language or dialect spoken most of the time by members of the household. In cases where two or more languages/dialects are spoken by household members, the one most often used in conversations among members of the family of the head when most of them are gathered together is considered as the language/dialect generally spoken in the household.

HEAD OF HOUSEHOLD

The person responsible for the care and organization of the household is generally considered as the head of the household. He usually provides the chief source of income for the household.

In the case of a household consisting of two or more unrelated persons sharing a dwelling unit and sharing the same cooking facilities and meals, the head is usually the eldest male or female in the group regarded as such by the other members.

RELATIONSHIP TO HEAD OF HOUSEHOLD

This determines how each household member is related to the head, who is usually the husband or father, although in his absence or if incapacitated, the wife may be designated as head.

1. Spouse -- a woman/man married to and living with the head. This includes legal marriages as well as common-law relationships.
2. Son/daughter -- the head's own child, stepchild, or adopted child.

EXPLANATORY TEXT

3. Son-in-law/daughter-in-law – refers to a household member related to the head by marriage to his daughter or son.
4. Grandson/granddaughter – child of the son or daughter of the head.
5. Other relative – a household member related to the head by blood, marriage, or adoption. Father, mother, aunts, nephews, parents-in-law and cousins are examples.
6. Others – any person in the household who is usually a non-relative of the head. Boarders and servants fall under this category. Certain members of the household who are related to the head by blood or affinity, but are actually boarders or servants in the household, are classified under "Others".

For collective households and group quarters, the question on relationship refers to the person's relationship to the institution or establishment, and not to the person recorded as head.

AGE AND DATE OF BIRTH

Data on the age of the population were obtained by asking the respondent the month and year of birth and the age itself of the household member before May 1, 1980. To ensure accuracy, a conversion table on age before May 1, 1980 was prepared for the use of enumerators, editors/coders and verifiers.

MARITAL STATUS

This refers to the civil status of all persons 10 years old and over. A person in this age group is classified as single, married, widowed, separated or divorced, or civil status unknown, based on the following definitions:

- a. Single – If never been married.
- b. Married – Legally married or living consensually with husband/wife without benefit of a legal marriage. A person classified as "married" includes one who remarried after having been widowed, separated or divorced or one temporarily separated from spouse owing to the nature of work, illness or service in the Armed Forces.
- c. Widowed – A person whose spouse died and who has not remarried at the time of enumeration.
- d. Separated – If permanently separated from spouse either legally or otherwise, due to marital discord.
- e. Divorced – If bond of matrimony has been dissolved through a court decree and is therefore free to remarry.
- f. Unknown – If civil or marital status is either not known to the respondent, or the respondent himself refuses to reveal the marital status of such person.

CITIZENSHIP

Citizenship is defined as the legal nationality of a person. A citizen is a legal national of the country of the census; an alien is a non-national of the country.

LITERACY

A person is considered literate if he is able to read and write a simple message in any language or dialect.

EXPLANATORY TEXT

HIGHEST GRADE COMPLETED

This has reference to the specific grade or year completed in elementary school, high school, college or university, by persons 7 years of age and over. Academic degree holders are classified according to the title of the degree received or the major field of study undertaken.

USUAL OCCUPATION

This refers to the specific job or kind of work that a person, who works most of the year, is usually pursuing, or if unemployed at the time of enumeration, it is the kind of work he used to do most of the year. A person is considered as usually working most of the year if he works for at least 10 hours a week for 26 weeks either for pay in cash or in kind, for a fee or profit in own farm, business or establishment or practice of a profession and without pay on family farm or enterprise. This particular group of workers is referred to as gainful workers.

For persons who do not work most of the year, the usual occupation relates to the non-gainful activities they usually do most of the year. Among such persons are housekeepers, students, pensioners, retired and disabled. However, a person who is housekeeping or schooling and also works in a gainful activity was reported as gainfully employed, even if more time was spent housekeeping or studying, as the case may be.

INDUSTRY

Industry refers to the specific character and nature of business or industry or the place where the work is being performed in connection with the job or occupation reported for a person.

EVER-MARRIED WOMAN

This refers to a woman who has already entered married life. Marriage here may either be legal or consensual union. At the time of enumeration the ever-married woman may still be married, or already widowed, separated or divorced.

II – HOUSING

BUILDING

A building is any independent free-standing structure comprising one or more rooms or other spaces, covered by a roof and enclosed within external walls or dividing walls with adjacent building which usually extend from the foundation to the roof. It usually contains one or more rooms internally connected with one another. A building therefore, is any structure intended for dwelling, storage, factory, shelter or for some other useful purposes.

For purposes of the 1980 Census of Population and Housing, only the following buildings were listed and assigned building serial numbers:

- a. A house or any kind of building or shelter where people were actually living;
- b. A residential building (house, apartment or accesorias, condominium) that was vacant;

EXPLANATORY TEXT

- c. Hotel, motel, lodging house, dormitory or camp (construction, logging, mining, etc.) in operation;
- d. A commercial, office, industrial, agricultural or other kinds of buildings with one or more dwelling units (containing a kitchen/kitchen-dining room, living room and a bedroom, and with separate entrance) which were all vacant.

The different types of buildings are:

1. Single house – a complete structure intended for one household. It includes the so-called “nipa hut” or a small house that is built as a more or less permanent dwelling unit.
2. Duplex – a structure intended for two households, with complete living facilities for each. It is divided either vertically or horizontally into two separate dwelling units which are usually identical.
3. Apartment/accesoria/condominium/row house

An apartment is a structure usually of several stories, made up of three or more independent entrances from internal halls or courts. It differs from an accesoria in that an apartment has one common entrance from the outside.

An accesoria is usually a one or two-floor structure divided into three or more dwelling units, each dwelling unit having its own separate entrance from the outside. Another name for accesoria is row house.

A condominium is usually a high-rise building where the dwelling units are owned individually but the land and other areas and facilities are owned in common.

4. Improvised (barong-barong) – a makeshift or roughly constructed house usually built with salvaged materials.
5. Commercial/industrial/agricultural – buildings not intended for human habitation but used as dwelling units at the time of the census.

Commercial – a building used for transacting business or rendering professional services, such as a storage or an office building.

Industrial – a building used for processing, assembling, fabricating, finishing, manufacturing or packaging operations, such as a factory or a plant.

Agricultural – any structure used for agricultural purposes, such as a barn, warehouse, rice mill, etc.

6. Other housing unit (natural shelter, boat, etc.)

This refers to living quarters which are not intended for human habitation nor located in permanent buildings but which are, nevertheless, used as living quarters at the time of the census. Caves, other natural shelters and mobile housing units such as trailer, barge, boat, etc., fall within this category.

7. Hotel, lodging house, dormitory, etc. – This group comprises permanent structures which provide lodging and/or meals on fee basis. Hotels, motels, inns, boarding houses, dormitories, pensions and lodging houses fall within this category.
8. Institutional (hospital/convent/school dormitory/penal institution, etc.) – a building intended for persons confined to receive medical, charitable, or other care treatment such as jails and penal colonies, and other buildings like convents, school dormitories, etc.
9. Other collective living quarters – any structure or shelter which does not fall under items 7 and 8. Included in this category are camps which are defined sets of

EXPLANATORY TEXT

premises originally intended for the temporary accommodation of persons with common activities or interests like military camps, and other camps established for the housing of workers in mining, agriculture, public works or other types of enterprises.

DWELLING UNIT

A dwelling unit is a separate and independent place of abode intended for habitation by one household, or one not intended for habitation but occupied as living quarters by a household at the time of the census.

Dwelling units counted included those that are occupied and those that are unoccupied.

CONSTRUCTION MATERIALS OF ROOF

The kinds of materials used are as follows:

1. Galvanized iron/aluminum
2. Tile/concrete/brick/stone
3. Asbestos
4. Cogon/nipa
5. Makeshift/salvaged materials
6. Others (anahaw, etc.)

CONSTRUCTION MATERIALS OF OUTER WALLS

The kinds of materials may be any of the following:

1. Galvanized iron/aluminum
2. Tile/concrete/brick/stone
3. Wood/plywood
4. Mixed tile/concrete/brick/stone and wood/plywood
5. Asbestos
6. Bamboo/sawali
7. Cogon/nipa
8. Makeshift/salvaged materials
9. Others (anahaw, etc.)

If the roof or outer walls are constructed of two or more materials the material most used was reported.

YEAR BUILDING WAS BUILT

This refers to the year when the extent of construction permitted occupancy for living purposes. The year reported was the particular year when the occupancy started or when the building was fit for occupancy even if not occupied.

NUMBER OF ROOMS IN THE DWELLING UNIT

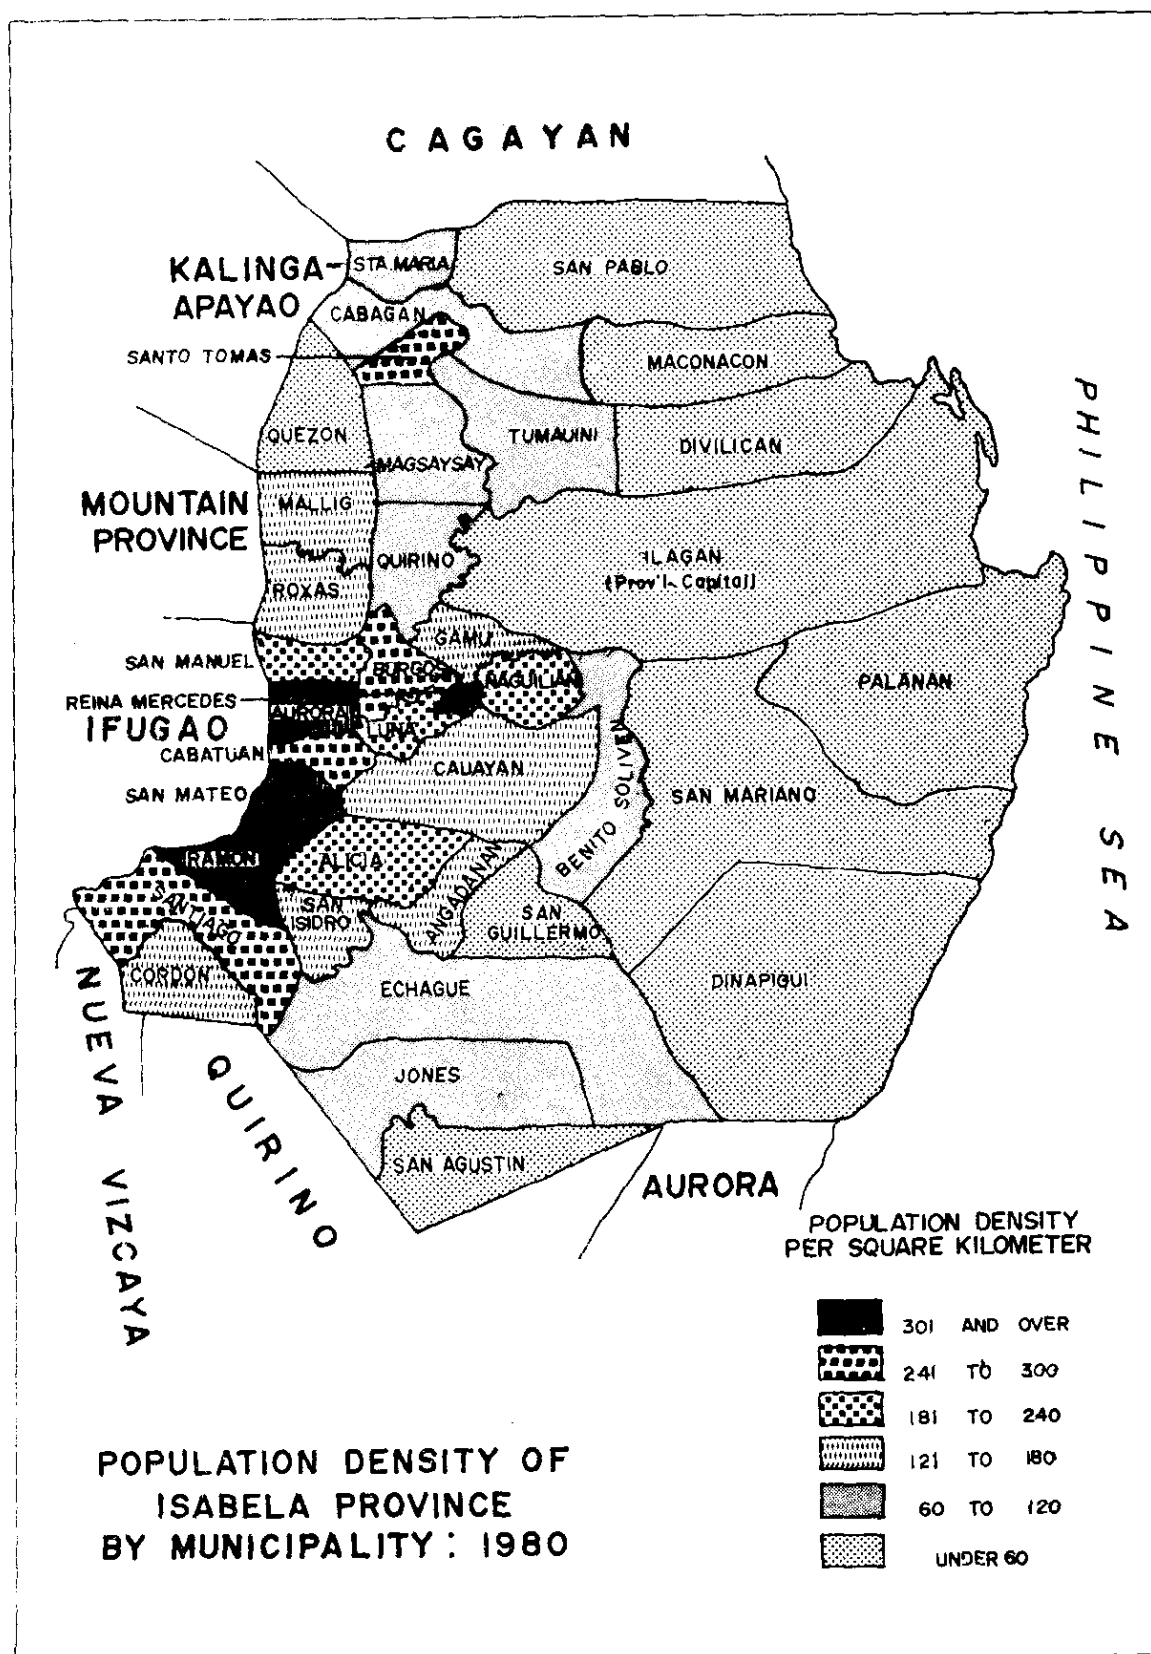

A room is defined as a space in a dwelling unit or other living quarters enclosed by walls reaching from the floor to the ceiling or roof covering, or at least to a height of 1.8 meters which are of permanent or semi-permanent structure, of a size large enough to hold a bed for an adult or at least has an area of 3 square meters.

EXPLANATORY TEXT

The total number of rooms reported included the bedrooms, dining room, living room, kitchen, roofed veranda, library or music room and other separate spaces used or intended for dwelling purposes, as long as they meet the criteria of walls and floor space. Passageways, lobbies, bathrooms and toilets or rooms used exclusively as store/shop/clinic/grains storage (nobody sleeps therein) were not counted as rooms even if they meet the criteria.

FLOOR AREA OF DWELLING UNIT

This refers to the space enclosed by the exterior walls of the dwelling unit, or the space measured inside the outer walls of the spaces that are counted as rooms. In case of several floors, the area of each floor in square meters was taken and added together to get the total floor area of the dwelling unit. Area of floor spaces that are not considered rooms such as bathroom, toilet, storeroom, passageway was excluded in determining the floor area.

Isabela : A Brief Analysis

Isabela, a province composed of 34 municipalities and 3 municipal districts, with Ilagan as the provincial capital, lies in the very heart of Cagayan Valley. It is bounded on the east by the Pacific Ocean, the province of Aurora on the southeast, Quirino on the south, Nueva Vizcaya on the southwest, Cagayan on the north and the provinces of Kalinga-Apayao, Mountain Province and Ifugao on the west. The Sierra Madre Mountain Range spreads over the eastern portion and the Cordillera Central on the western side while the Caraballo mountains traverse the southern part. The province has fertile plains and valleys drained by the Cagayan River and other major rivers like Magat, Siffu, Pinacauan, and Mallig.

POPULATION

The 1980 census saw the rise of the provincial population to 870,604, an addition of 140,218 persons (19.20%) to the 1975 count. Isabela occupies a land area of 10,664.5 square kilometers, representing 3.60 percent of the country's land area. Each square kilometer is sparsely populated by 81.6 persons, despite an increase of 222,481 persons since 1970. From 1975 to 1980, the population of the province grew at a slightly faster rate than the national figure, i.e., an annual geometric growth rate of 3.57 for the former and 2.71 percent for the latter, pushing the province from the seventeenth to the fifteenth rank.

A little more than one-sixth (16.79%) of the total population of the province are urban residents. This proportion is 1.68 percentage points more than the 1975 proportion of 15.11 percent and 3.53 percentage points higher than the 1970 percentage. The urban population is almost equally divided between the two sexes (male, 8.36%; female, 8.43%).

The males continue to outnumber the females, (104.95 males for every 100 females), despite a 1.92 decrease from the 1975 sex ratio. The reduction, however, is only about half its increase during the first half of the decade. The same pattern is true for the rural sex ratio of 106.14. In the urban sector, the females regain their predominance resulting to a drop of the sex ratio from 103.39 in 1975 to 99.27 in 1980.

Following is the breakdown of the population of Isabela into urban-rural residence by sex for the three censal years in review:

A BRIEF ANALYSIS

**TABLE A — URBAN-RURAL POPULATION BY SEX,
ISABELA: 1970, 1975 AND 1980**

Area Classification and Sex	1980		1975		1970	
	Number	Percent	Number	Percent	Number	Percent
Total	<u>870,604</u>	<u>100.00</u>	<u>730,386</u>	<u>100.00</u>	<u>648,123</u>	<u>100.00</u>
Male	445,825	51.21	377,326	51.66	329,055	50.77
Female	424,779	48.79	353,060	48.34	319,068	49.23
Urban	<u>146,176</u>	<u>16.79</u>	<u>110,392</u>	<u>15.11</u>	<u>85,926</u>	<u>13.26</u>
Male	<u>72,822</u>	<u>8.36</u>	<u>56,116</u>	<u>7.68</u>	<u>42,633</u>	<u>6.58</u>
Female	<u>73,354</u>	<u>8.43</u>	<u>54,276</u>	<u>7.43</u>	<u>43,293</u>	<u>6.68</u>
Rural	<u>724,428</u>	<u>83.21</u>	<u>619,994</u>	<u>84.89</u>	<u>562,197</u>	<u>86.74</u>
Male	<u>373,003</u>	<u>42.84</u>	<u>321,210</u>	<u>43.98</u>	<u>286,422</u>	<u>44.19</u>
Female	<u>351,425</u>	<u>40.37</u>	<u>298,784</u>	<u>40.91</u>	<u>275,775</u>	<u>42.55</u>

A BRIEF ANALYSIS

The rural-male and female population from the age group under 5 years to 80 years old and above decrease as the group becomes older. The same pattern is true for the urban-male and female population except for the slight deviation from the usual pyramid configuration wherein females 15 to 19 years old outnumber the 10-14 years age group.

AGE COMPOSITION

The proportion of persons belonging to the 15-64 year-old bracket, otherwise known as the working or productive group, exceeds that of the younger group when it used to be the other way around ten years ago. In 1980, the working group accounts for 52.91 percent of the total population while the latter, 44.21 percent. Meanwhile, adults 65 years old and over make up 2.88 percent of the total.

Proportions of the three age groups (the younger, productive, and the older groups) are observed to behave differently during the three censuses under study. The first age group follows a diminishing trend from 49.51 percent in 1970 to 46.12 percent in 1975 and to 44.21 percent in 1980. The second one rose from 45.22 percent in 1970 to 51.36 percent in 1975 and further to 52.91 percent in this censal year. For the third group, it is an up-and-down trend. After dropping off 2.75 percentage points between 1970 and 1975, it increased by 0.36 percentage point to 2.88 percent.

Comparative figures showing the age composition of the population for 1970, 1975 and 1980 follow:

**TABLE B – AGE COMPOSITION OF THE POPULATION,
ISABELA: 1970, 1975 AND 1980**

Age Composition	1980		1975		1970	
	Number	Percent	Number	Percent	Number	Percent
Total	870,604	100.00	730,386	100.00	648,123	100.00
0 – 14 years	384,933	44.21	336,830	46.12	320,874	49.51
15 – 64 years	460,609	52.91	375,168	51.36	293,117	45.22
65 years and over	25,062	2.88	18,388	2.52	34,132	5.27

With another year increase in its median age from 16 years in 1975 to 17 years in 1980, the population of the province in general is getting older. This was coupled by 1.05 increase in its aged-child ratio, putting the ratio at 6.51 elderly for every 100 children.

The burden placed upon the working population has been reduced as their proportion continued to increase. For 1980, the number of dependents aged 0 to 14 years and 65 years and over supported by 100 economically active persons was only 89.01 when it used to be 5.67 and 32.10 dependents more in 1975 and 1970, respectively.

The rural workers were more heavily laden than their urban counterparts as indicated by a higher dependency ratio for the former (90.49) than the latter (82.01).

A BRIEF ANALYSIS

MARITAL STATUS

Married individuals consistently accounted for more than one-half of the total population 10 years old and over (51.63% in 1970, 50.60% in 1975 and 53.13% in 1980). Never married persons came next with these shares in the three censal periods: 1970, 41.19 percent; 1975, 46.11 percent and 1980, 42.70 percent. For the 1980 census, the widowed represented 3.69 percent; divorced or separated, 0.33 percent and those who did not reveal their status, 0.15 percent. This pattern of distribution was likewise observed among the males and females. Among the males, 51.90 percent were married; 45.72 percent, never married; 1.98 percent, widowed; 0.24 percent, divorced or separated and 0.16 percent, status not stated. The corresponding figures for the females are 54.42 percent, 39.54 percent, 5.48 percent, 0.42 percent and 0.14 percent. It was also observed that the number of widowed females were nearly three times the widowed males.

The accompanying table presents the distribution of persons 10 years old and over by sex and marital status in the three censal period:

**TABLE C — POPULATION 10 YEARS OLD AND OVER
BY SEX AND MARITAL STATUS,
ISABELA: 1970, 1975 AND 1980**

Sex and Marital Status	1980		1975		1970	
	Number	Percent	Number	Percent	Number	Percent
Both Sexes	<u>597,100</u>	<u>100.00</u>	<u>495,778</u>	<u>100.00</u>	<u>406,585</u>	<u>100.00</u>

Not stated	417	0.14	82	0.03	7,452	3.59

A BRIEF ANALYSIS

HIGHEST GRADE COMPLETED

The new social order has paved the way for a more conducive learning situation in the province to the effect that more and more people pursue higher education. As such, between 1975 and 1980, increases in proportions were noted for those reaching up to the secondary level (17.42% to 20.60%), collegiate level (3.88% to 6.02%) and of those finishing a degree (2.20% to 3.14%). Consequently, downfall in proportions were registered by those who had no formal training (8.16% to 6.19%), with elementary education only (66.97% to 63.55%) and by those who for some reasons did not disclose their educational background (1.37% to 0.50%).

The females persevered more to attain a higher level of education to prove to the world once and for all that they are not a weaker sex after all. As a result, they turned out more academic degree holders than the males (3.62% against 2.67%). In spite of this encouraging trend, however, a greater percentage of women had never been to school or if at all, did not even complete grade one (6.61% against 5.78% percent for the males). This pattern was also true for those with elementary training (females, 63.77%; males, 63.35%). On the other hand, higher percentages of the males reached the secondary (21.66% against 19.50%) and the collegiate level (6.04% against 6.01%).

A BRIEF ANALYSIS

Shown below is the distribution of the private household population 7 years old and over according to highest grade completed during the last two censal years:

**TABLE D – PRIVATE HOUSEHOLD POPULATION 7 YEARS OLD AND OVER
BY HIGHEST GRADE COMPLETED,
ISABELA: 1975 AND 1980**

Highest Grade Completed	1980		1975	
	Number	Percent	Number	Percent
Total	<u>668,155</u>	<u>100.00</u>	<u>560,942</u>	<u>100.00</u>
No grade completed	41,355	6.19	45,787	8.16
Elementary	424,643	63.55	375,686	66.97
High school	137,658	20.60	97,723	17.42
College	40,248	6.02	21,753	3.88
Academic degree holder	20,944	3.14	12,327	2.20
Not stated	3,307	0.50	7,666	1.37

A BRIEF ANALYSIS

LITERACY

The province demonstrated an upward course in the literacy rate of the private household population 10 years old and over. Its literate population in 1970 made up more than four-fifths (81.94%) of the private household population 10 years old and over. Ten years after, the reported rate was 82.53 percent or an equivalent increase of 0.59 percentage point.

The easy access of urban residents to more schools afforded them to have a higher proportion of literates (90.47%) as compared to the rural folks' literacy rate of 80.85 percent.

The urban-male and female literacy rate are almost equal, 90.81 percent and 90.15 percent, respectively. Similarly, the rural-male approximated the rural-female literacy rate, 81.22 percent as against 80.46 percent. The overall standing had the female literacy behind by 0.61 percentage point to the male literacy rate.

LANGUAGE OR DIALECT

Diversity in languages or dialects spoken is prominent among the 153,423 private households of the province. Of this total, 70.63 percent speak Ilocano; 14.56 percent, Ibanag and 7.64 percent, Tagalog. Other dialects which are commonly spoken in Cagayan Valley have these shares: Yokad, 1.51 percent; Gaddang, 1.30 percent; Palanan, 1.11 percent and Itawis, 0.66 percent.

A BRIEF ANALYSIS

GAINFUL OCCUPATION

In view of the usual role of the man as the breadwinner and the woman in childrearing and housekeeping (despite increasing proportion of women in paid employment), the province turns out more gainfully employed males (84.32%) and more not economically active females (82.96%). The urban areas have a sizable female gainful workers (26.95%), more than double the rural proportion (13.26%). In general, students account for a high percentage (70.83%) of the non-gainful males while housekeepers comprise 81.96 percent of the non-gainful females.

Agricultural, animal husbandry and forestry workers, fishermen and hunters have the highest share of the total employed (70.29%) although it is 3.83 percentage points lower than its 1975 proportion. Next are the production and related workers, transport equipment operators and laborers (11.57%), an increase of 0.64 percentage point to its 1975 percentage. Third in rank with a 1.49 percentage points increase are the professional, technical and related workers (5.56%). The rest are as follows: service workers, 5.07 percent; sales workers, 4.03 percent; clerical and related workers, 2.42 percent; workers not classifiable by occupation, 0.67 percent and administrative, executive and managerial workers, a slight 0.39 percent share.

**TABLE E – GAINFUL WORKERS 15 YEARS OLD AND OVER
BY MAJOR OCCUPATION GROUP,
ISABELA: 1975 AND 1980**

Major Occupation Group	1980		1975	
	Number	Percent	Number	Percent
Total	<u>242,656</u>	<u>100.00</u>	<u>201,903</u>	<u>100.00</u>
Professional, technical and related workers	13,480	5.56	8,210	4.07
Administrative, executive and managerial workers	953	0.39	1,277	0.63
Clerical and related workers	5,875	2.42	3,659	1.81
Sales workers	9,764	4.03	8,935	4.43
Service workers	12,303	5.07	7,148	3.54
Agricultural, animal husbandry and forestry workers, fisher- men and hunters	170,571	70.29	149,661	74.12
Production and related workers, transport equipment operators and laborers	28,075	11.57	22,065	10.93
Workers not classifiable by occupation	1,635	0.67	948	0.47

A BRIEF ANALYSIS

INDUSTRY

Agriculture, fishery and forestry contribute much to the economy of the province by providing work to 71.29 percent of the total gainful workers 15 years old and over. Agricultural crop production is the leading source of employment in this group and this is highly attributable to the province's vast fertile plains. Meanwhile, about one-eighth (12.29%) of the total gainful workers benefit from community, social and personal services, especially those in education services. Only 4.10 percent are engaged in wholesale and retail trade (14.83% in wholesale trade and 85.17% in retail trade); 3.54 percent derive their sustenance from the manufacturing industry and 3.42 percent make profit from transportation, storage and communication. The rest venture into such businesses like construction (3.12%); financing, insurance, real estate and business services (0.97%); activities not adequately defined (0.72%); electricity, gas and water (0.28%) and mining and quarrying (0.27%).

A BRIEF ANALYSIS

MIGRATION

Out of the 719,024 household population 5 years and over, 94.53 percent resided in the same municipality within the province where they had lived on May 1, 1975; 2.53 percent lived in another municipality of the same province and 2.74 percent moved across provincial boundaries. A very small percentage (0.20%) of the population resided in a foreign country.

More males moved across provincial boundaries while more females transferred from one municipality to another within their home province.

TYPE OF BUILDING

Most (96.14%) of the households in Isabela live in single houses. An aggregate of 5,921 households or 3.86 percent occupy other types such as improvised structures or barang-barang (1.07%); duplex (0.96%); apartment/accesoria/condominium/etc. (0.97%); commercial/industrial/agricultural buildings (0.52%); hotel, lodging house, dormitory, etc. (0.17%); other collective living quarters (0.11%); other housing units like natural shelter, boat, etc. (0.04%) and institutional buildings (hospital, convent, school dormitory, etc.), 0.02 percent (Table 1).

A BRIEF ANALYSIS

There is no report of households occupying hotel, lodging house, dormitory, etc. in the urban areas which means that the 0.17 percent reported occupants are rural households.

The table below summarizes the housing condition of households in Isabela ten years after:

**TABLE F – NUMBER OF HOUSEHOLDS IN OCCUPIED DWELLING UNITS
BY TYPE OF BUILDING, ISABELA: 1970 AND 1980**

Type of Building	1980		1970	
	Number	Percent	Number	Percent
Total	153,423	100.00	116,651	100.00
Single house	147,502	96.14	110,274	94.53
Duplex	1,477	0.96	2,135	1.83
Apartment/accesoria/condominium/row house/etc.	1,492	0.97	596	0.51
Improvised (barong-barong)	1,637	1.07	2,485	2.13
Commercial/industrial/agricultural	798	0.52	1,152	0.99
Other housing unit: natural shelter, boat, etc.	67	0.04	—	—
Hotel, lodging house, dormitory, etc.	253	0.17	—	—
Institutional (hospital, convent, school dormitory, etc.)	35	0.02	9	0.01
Other collective living quarters (military camp, etc.)	162	0.11	—	—

TYPE OF OCCUPANCY

Almost nine out of ten (89.12%) of the total households own the unit they occupy; 6.21 percent, rent-free occupants; 4.43 percent, tenants/lessees and 0.24 percent, subtenants/sublessees (Table 1).

Rural dwellers are mostly owners themselves accounting for 91.01 percent while the urban owner-occupants constituted 79.54 percent only.

Single house is the most popular type of building among dwelling owners — 98.06 percent have units built that way.

CONSTRUCTION MATERIALS OF ROOF AND OUTER WALLS

A little less than one-half or 48.57 percent of the 153,423 households of Isabela can afford houses roofed with strong materials such as galvanized iron (48.17%), tile/concrete/brick/stone (0.35%), asbestos (0.05%) while the rest of the households (51.43%) have to make do with nipa/cogon (50.06%) and others like makeshift/salvaged materials (0.41%), and anahaw, etc. (0.96%) (Table 2).

A BRIEF ANALYSIS

The more affluent ones (72.70%) from the urban areas have strong materials as their roofing: 72.20 percent utilize galvanized iron; 0.48 percent, tile/concrete/brick/stone and 0.02 percent, asbestos. Their counterpart from the rural areas, 43.80 percent of them, have dwelling units built with roof of the same materials.

Bambo/sawali is used for outer walls by more than one-half (56.55%) of the households. Second and third to it are wood/plywood (20.06%) and mixed tile/concrete/brick/stone and wood/plywood (14.22%). Asbestos is the least, with only 0.13 percent of the households utilizing it for their outer walls (Table 2).

YEAR BUILT

Around two-fifths (41.72%) of the households have newly built houses, constructed between 1976-1980. One-fourth (25.10%) have their dwelling units erected between 1971-1975; roughly one-fifth (19.48%) during 1961-1970; 9.76 percent have houses built between 1951-1960, while 2.90 percent live in structure made between 1942-1950. The remaining households (1.04%) live in structures dating back to as early as 1941 or earlier (Table 2).

FLOOR AREA OF DWELLING UNIT

The more affluent households (2.81%) have dwelling units with 100 square meters and over floor area while many of the households (63.42%) have less than 30 square meters floor area. About 24.53 percent live in 30-49 square meter dwelling units; 5.71 percent in units 50-69 square meters and 3.53 percent occupy units 70-99 square meters in floor space (Table 3).

TENURE OF OWNER-OCCUPANT WITH RESPECT TO THE LAND

Of the 136,729 homeowners, 73.60 percent have security of tenure being owners of the land, too. Lessees or sublessees account for 9.34 percent; farm lessees/agricultural tenants of landowners, 5.87 percent and other legal tenure, 3.00 percent. Squatters abound in the province, comprising 8.19 percent (Table 4).

KIND OF LIGHTING FACILITIES

The use of kerosene for lighting is prevalent among 82.52 percent of the 153,423 households. More than one-seventh (14.89%) have access to electricity for their lighting; 2.07 percent use liquefied petroleum gas (LPG); 0.14 percent make do with oil and 0.38 percent, other such as candle or wax (Table 5).

Electricity is distributed among the 38.85 percent of the urban households while the rest either have no financial means or access to electricity or it has not reached their area and so they have to content themselves with the use of kerosene (59.86%), liquefied petroleum gas (1.07%), oil (0.10%), or other such as candle or wax (0.12%). For the rural households, only a handful of them (10.15%) avail of the services of electric companies for their power supplies. Most of these households (87.00%) utilize kerosene and for the rest, the use of either liquefied petroleum gas (2.27%), oil (0.15%) or other (0.43%) suffices.

SOURCE AND USE OF WATER SUPPLY

Approximately 32.18 percent of the households depend on tubed/piped shallow well for their supply of drinking water; 42.56 percent obtain their water supply from

A BRIEF ANALYSIS

tubed/piped deep well and at least 16.33 percent of the households provide themselves with drinking water from dug well. Other sources of drinking water include faucet, community water system (4.30%), spring (3.25%), lake and rivers (1.37%) and rain (0.01%).

Households obtaining water for kitchen use from tubed/piped deep well comprise 42.83 percent; tubed/piped shallow well, 32.15 percent; dug well, 16.36 percent; faucet, community water system, 3.88 percent; spring, 3.15 percent; lake, river, stream, irrigation, etc., 1.61 percent and rain, 0.02 percent.

Proportions of households obtaining water from different sources for washing clothes are as follows: tubed/piped deep well, 36.95 percent; tubed/piped shallow well, 28.87 percent; dug well, 11.89 percent; lake, river, stream, irrigation, etc., 16.12 percent; faucet, community water system, 3.31 percent; spring, 2.82 percent and rain, 0.04 percent (Table 6).

COOKING FUEL

Wood or charcoal is the most commonly used cooking fuel by a good number (88.90%) of the households of Isabela. The remaining households (11.10%) prefer kerosene (6.96%), liquefied petroleum gas (2.76%), electricity (0.83%), and other (0.55%). Most of the urban and rural residents cook with wood or charcoal, 81.45 percent and 90.38 percent, respectively (Table 8).

TOILET FACILITIES

Households with exclusive use of flush or water-sealed toilets account for 46.79 percent of the households (41.15%, water-sealed with other depository; 5.64%, water-sealed with sewer/septic tank) while those sharing the same toilet facilities with other households comprise 17.38 percent of the total (14.74%, water-sealed with other depository; 2.64 percent, water-sealed with sewer/septic tank). Only 29.72 percent adopt other types such as closed pit (antipolo, etc.), 16.41 percent; open pit, 12.90 percent and other (pail system, etc.), 0.41 percent. Approximately one out of fifteen households (6.11%) have no toilet facilities (Table 7).

Urban households are better-off than those in rural areas when it comes to toilet facilities. Less than two-thirds (64.50%) of the urban households have water-sealed with depository other than sewer/septic tank; 14.94 percent use water-sealed with sewer/septic tank; 9.54 percent, closed pit; 8.68 percent, open pit; 0.14 percent, pail system and 2.20 percent have none. Among the rural households, 54.20 percent have water-sealed with other depository; 6.95 percent, water-sealed with sewer/septic tank; 17.77 percent, closed pit (antipolo, etc.); 13.73 percent, open pit; 0.46 percent, pail system and 6.89 percent have no toilet facilities.

OWNERSHIP OF RADIO, TELEVISION AND REFRIGERATOR/FREEZER

It is a common sight among the households in Isabela to own at least a household appliance (68.12% own radios, 4.57% have television sets and 4.33% with refrigerator or freezer) (Table 9). The availability of electricity to a greater number of urban households brought about a higher proportion of ownership of household appliances than their rural counterparts. Around three-fourths (75.85%) of the urban households own radios, 13.36 percent have television sets and 12.38 percent with refrigerators or freezers. The rural households, despite limited supply of electric power, come up with the following proportions: 66.59 percent, with radios; 2.83 percent, television sets and 2.74 percent, refrigerator or freezer.

* MUNICIPAL DISTRICT.

1/ CREATED MUNICIPALITY SEPTEMBER 28, 1949 UNDER E. O. NO. 268; PART OF ANGADANAN IN 1948.

2/ CALIG IN 1939.

3/ CREATED MUNICIPALITY MAY 18, 1967 UNDER R. A. NO. 4873; TAKEN FROM SAN MARIANO, ILAGAN AND NAGUILIAN.

4/ CREATED MUNICIPALITY MAY 18, 1967 UNDER R. A. NO. 4877; TAKEN FROM GAMU AND AURORA.

5/ CABAGAN NUEVO IN 1903.

6/ CREATED MUNICIPALITY NOVEMBER 5, 1949 UNDER E. O. NO. 293; PART OF CAUAYAN IN 1948.

7/ PART OF SANTIAGO IN 1918 AND 1939.

8/ CREATED MUNICIPAL DISTRICT JUNE 21, 1969 UNDER R. A. NO. 5776. AREA UNDER DISPUTE BETWEEN ISABELA AND QUEZON PROVINCE; INHABITANTS WERE ENUMERATED IN DILASAG, QUEZON.

9/ CREATED MUNICIPAL DISTRICTS JUNE 21, 1969 UNDER R. A. NO. 5776; TAKEN FROM TUMAUINI AND CABAGAN, RESPECTIVELY.

10/ ANTATET IN 1939 AND 1948; CHANGE OF NAME FROM ANTATET TO LUNA JUNE 8, 1951 UNDER R. A. NO. 663.

11/ CREATED MUNICIPALITY JUNE 22, 1957 UNDER R. A. NO. 2009; PART OF TUMAUINI IN 1948.

12/ CREATED MUNICIPALITY APRIL 8, 1952 UNDER R. A. NO. 370; PART OF ILAGAN AND ROXAS.

13/ CREATED MUNICIPALITY JUNE 21, 1959 UNDER R. A. NO. 2418; PART OF MALLIG.

14/ CREATED MUNICIPALITY JUNE 17, 1967 UNDER R. A. NO. 4901; TAKEN FROM ILAGAN, ROXAS AND GAMU.

15/ CREATED MUNICIPALITY NAMED RAMON JUNE 18, 1961 UNDER R. A. NO. 3220; TAKEN FROM SANTIAGO AND SAN MATEO.

16/ CREATED MUNICIPALITY SEPTEMBER 22, 1949 UNDER E. O. NO. 269; PART OF JONES IN 1948.

17/ CREATED MUNICIPALITY JUNE 17, 1967 UNDER R. A. NO. 4906; TAKEN FROM ANGADANAN AND ECHAGUE.

18/ CREATED MUNICIPALITY JUNE 17, 1967 UNDER R. A. NO. 5139; TAKEN FROM ECHAGUE.

19/ FORMERLY CALLANG; CREATED MUNICIPALITY JUNE 23, 1957 UNDER R. A. NO. 2048.

20/ TOWNSHIP OF SAN MARCIANO IN 1918.

21/ CABAGAN VIEJO IN 1903.

22/ PART OF CABAGAN IN 1918, 1939 AND 1948.

23/ INCLUDES UNDISTRIBUTED NON-CHRISTIAN POPULATION OF 7,638 AND THE FORMER MUNICIPALITY OF CARIG WITH POPULATION OF 1,964.

24/ INCLUDES FORMER BERTY PART OF SICI.

25/ NON-CHRISTIAN POPULATION PER TABLE 38 OF 1918 CENSUS REPORT.

CERTIFICATION

I HEREBY CERTIFY that the data set forth in this form were personally obtained by me in accordance with the rules and regulations promulgated by the National Census and Statistics Office.

Name of person accomplishing this form
(Printed Name & Sign)
Date _____ 1980

PERSONS TO BE ENUMERATED AS MEMBERS OF COLLECTIVE HOUSEHOLDS

1. HOTELS, LODGING HOUSES, DORMITORIES, ETC.

- a. Proprietor, manager and employees living in the establishment, except those living therein with their own families and those who usually go home to their respective families at least once a week.
- b. Permanent lodgers/boarders (those who have stayed or expect to stay for one year or longer) and those temporary lodgers/boarders who have stayed for six months or longer as of May 1, 1980 or have been away from their own families for the same period. However, exclude those who usually go home at least once a week.
- c. Lodgers/boarders who are not residents of the Philippines and who have been in the Philippines for one year or longer as of May 1, 1980, or expect to stay in the Philippines for one year or longer. However, exclude those who have temporary place of residence elsewhere in the Philippines to where they usually go home. Exclude also diplomatic representatives or UN, ILO or USAID officials who, like diplomatic representatives, are subject to assignment to other countries after their tour of duty in the Philippines, and members of their families.

2. HOSPITALS AND NURSES' HOMES

- a. All patients, including those just confined, in mental hospitals, leprosaria or leper colonies, pavilions of tuberculosis sanatoria where patients stay more or less permanently, and rehabilitation centers for drug addicts.
- b. Patients who have been confined for six months or longer as of May 1, 1980 in other kinds of hospitals and in wards for temporary confinement in tuberculosis sanatoria.
- c. Nurses in nurses' homes who do not usually go home at least once a week.
- d. Staff members and employees living in hospitals/nurses' homes, except those living therein with their families and those who usually go home at least once a week.

3. WELFARE INSTITUTIONS (Homes for the Aged and Infirm, Orphanage, Boys' Town, etc.)

- a. All inmates or wards, including those just confined.
- b. Staff members and employees living in the institutions, except those living therein with their families and those who usually go home at least once a week.

4. CORRECTIVE AND PENAL INSTITUTIONS

- a. All prisoners in national prisons and reformatories (wellfareville).
- b. Prisoners and detainees in provincial or city/municipal jails who have been continuously confined for six months or longer, including confinement elsewhere, as of May 1, 1980, or those whose sentence is for six months or longer even if the sentence is on appeal.
- c. Staff members and employees living in the institutions except those living therein with their own families and those who usually go home at least once a week.

5. CONVENTS, NUNNERIES, SEMINARIES, AND BOARDING SCHOOLS

- a. Monks, priests, ministers, nuns, seminarians, etc. However, priests or ministers of sects other than the Roman Catholic Church who live in the convent or house close to church or chapel with their own families are to be excluded (private households).
- b. Students in boarding schools (schools where students are required to stay in the school campus).
- c. Staff members, employees and helpers living in the premises, except those living therein with their own families and those who usually go home at least once a week.

6. MILITARY CAMPS AND STATIONS (PC, Army, Air Force and Navy): PMA

- a. Officers and enlisted men/draftees, except those who live in the premises with their own families and those who usually sleep most nights with private households or in hotels, lodging places or dormitories. Include those belonging to the unit in the camp or station who are away on military operation or mission or aboard naval vessels, except those whose families are living in the camp or station (their own families will report them).
- b. PMA cadets and trainees whose training is for six months or longer.
- c. Detainees who have been continuously confined for six months or longer, including confinement elsewhere, as of May 1, 1980.
- d. Civilian employees living in the camp or station, except those living therein with their own families and those who usually go home at least once a week.

7. LOGGING, MINING AND CONSTRUCTION PUBLIC WORKS CAMPS, PLANTATIONS AND AGRICULTURAL/FISHERIES EXPERIMENTAL OR BREEDING STATIONS, ETC.

- a. Proprietor, manager, contractor and employees who do not live with their families in the premises and are supplied lodging (beddings, etc.) and/or meals by the company, firm, contractor or agency, except those who usually go home at least once a week.

8. OCEAN-GOING AND INTERLAND/COASTAL VESSELS OR DEEP-SEA FISHING VESSELS

- a. Filipino crew members of ocean-going vessels (whose own families live in the Philippines) at port as of 12:01 A.M. May 1, 1980, except those who usually go home to their own families in the Philippines at least once every six months.
- b. Any crew member of interland/coastal vessel or deep-sea fishing vessel at port on any day during the enumeration, if the crew member has no home other than the vessel.

9. REFUGEE CAMPS

- a. Filipino citizens working and living inside the camps.
